## **Lab 4: Heart Rate Detection**

<ul> <li>Detect the R wave from your recorded ECG signals.</li> <li>Find the R-peaks in MIT-BIH database.</li> <li>Implement the pre-processing of the ECG signals (Lab 3) and R-peak detection in and display the processed ECG signals and the R-peaks in real time.</li> </ul>	
<ul> <li>Find the R-peaks in MIT-BIH database.</li> <li>Implement the pre-processing of the ECG signals (Lab 3) and R-peak detection in</li> </ul>	
3 Implement the pre-processing of the ECG signals (Lab 3) and R-peak detection in and display the processed ECG signals and the R-peaks in real time.
